

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office SEP 28 1977

Returned to applicant for correction

Corrected application filed

Map filed SEP 28 1977 under 33852

The applicant State of Nevada, Department of Fish and Game, Box 10678, Reno, Nevada 89520, hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated.

(If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

1. The source of the proposed appropriation is Underground. Name of stream, lake or other source.

2. The amount of water applied for is 2.0 second-feet. One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet acre-feet

3. The water to be used for Fish, Wildlife, and recreation. Irrigation, power, mining, manufacturing, domestic, or other use.

4. If use is for:

(a) Irrigation (state number of acres to be irrigated)

(b) Stockwater (state number and kinds of animals to be watered)

(c) Other use (describe fully under "No. 12. Remarks")

(d) Power:

(1) Horsepower developed

(2) Point of return of water to stream

5. The water is to be diverted from its source at the following point: in the SW 1/4 of Section 33,

T20N, R31E, M.D.B. & M.; from which the SW section corner of Section 33 bears 579° 31' 48" W, 3,613.84 feet.

Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land, it should be stated.

6. Place of use See attached sheet for legal description of "Place of Use." Describe by legal subdivision, if on unsurveyed land it should be so stated.

7. Use will begin about January 1 and end about December 31, of each year. Day and Month Day and Month

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) 16" cased well with concrete seal and gravel filter pack; turbine pump. State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

- 9. Estimated cost of works.....\$100,000.00.....
- 10. Estimated time required to construct works..... 5 years.....
- 11. Estimated time required to complete the application to beneficial use..... 7 years.....
- 12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

Water is to be used to maintain a habitat condition necessary to sustain fish and wildlife populations and recreational objectives.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the Proof of Completion of Work is filed.

The total combined annual duty of water under this permit and Permits 33852, and 33855 shall not exceed 4800 acre-feet annually.

This permit is issued subject to the State Engineer's Ruling dated April 5, 1978.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.46 cubic feet per second, but not to exceed 3229 acre-feet annually.

Actual construction work shall begin on or before August 7, 1978
 Proof of commencement of work shall be filed before September 7, 1978
 Work must be prosecuted with reasonable diligence and be completed on or before August 7, 1978
 Proof of completion of work shall be filed before September 7, 1978
 Application of water to beneficial use shall be made on or before August 7, 1981
 Proof of the application of water to beneficial use shall be filed on or before September 7, 1981
 Map in support of proof of beneficial use shall be filed on or before September 7, 1981

Commencement of work filed OCT 10 1978
 Completion of work filed OCT 10 1978
 Proof of beneficial use filed
 Cultural map filed
 Certificate No. Issued
